

Pre-visit Activities

Program:

Who, When and Where in Maryland

Discuss the meaning of a scavenger hunt.

Develop a scavenger hunt at your school playground or classroom. Have students work in teams of 4. (Possible scavenger hunt ideas: the meaning of certain words, location on the map of a particular city, state or country, number of links on the school swing, students in the class who's last names begin with a particular letter, length of one side of the school, total number of letters/numerals in the school's complete address).
